

Vietnamese-Australian Museum Petition

Can you add your name to the petition calling for the Federal Government to support the establishment of Australia's first Vietnamese-Australian museum?

- Australia is the home of almost 300,000 people with Vietnamese heritage, representing 1.25% of the population.
- Over the last 40 years, the Vietnamese community has become a model for multi-culturalism in Australia having successfully integrated into society, contributing to business, government, sports and the arts.
- Unlike the Chinese, Italian, Islamic and Jewish communities, which all have their respective museums in Melbourne, there is no venue where current and future generations of Vietnamese-Australians can learn about Vietnamese history in Australia.
- It is time the Vietnamese-Australian community have their own museum to collect, preserve and exhibit Vietnamese culture, history and identity as a reminder and example of Australia's world class multicultural society.
- The museum will support community development and engage with the wider community. It will host programs and initiatives that will transform the museum into an iconic civic hub, resource centre and a must-see destination in Victoria.

Add your name to the petition if you agree that the Government needs to support the establishment of a Vietnamese-Australian museum.

This petition is conducted in partnership with the Victorian chapter of the Vietnamese Community in Australia (VCA).
